### Cleaners & Degreasers

<table>
<thead>
<tr>
<th>Product</th>
<th>Description</th>
</tr>
</thead>
</table>
| **20/20 Glass Cleaner**       | • Non-streaking, leaves no residue  
• Does not contain ammonia  
• Excellent all-purpose hard surface cleaner                                                                                                      |
| **22/80 Contact Cleaner**     | • Quick and easy cleaning compound  
• Useful for cleaning contacts, tuners, switches, motors, and other equipment where it is not possible to go through a mechanical wiping                                                      |
| **22/90 Heavy Duty Degreaser**| • Non-corrosive  
• Rapid-evaporating, strong-action  
• Strong, effective cleaner where build-up of grease, oil, grime, paint, adhesive and other unwanted substances are encountered                                                                 |
| **22/80 Citrus Cleaner**      | • Use as a degreaser and adhesive remover  
• Non-corrosive and has pleasant citrus scent                                                                                                      |
| **22/80 Citrus Cleaner - Bulk**|                                                                                                                                                                                                             |
| **22/90 Citrus Cleaner - Bulk**|                                                                                                                                                                                                             |
| **480 Screen Opener**         | • Works to unplug screens and loosen plastisol inks on screens  
• Works fast to reduce down-time on screen printing projects                                                                                     |

### Adhesives

<table>
<thead>
<tr>
<th>Product</th>
<th>Description</th>
</tr>
</thead>
</table>
| **385 Webbing Screen Printers’ Adhesive** | • Pressure-sensitive  
• Will not wrinkle  
• Designed for fleece and other high density garments                                                                                          |
| **393 Headliner, Trim & Laminating Adhesive** | • For all applications requiring high strength or high temperature  
• 3-way valve, web-spray                                                                                                                        |
| **200 Shelby - General Purpose Mist Spray Adhesive** | • Especially formulated to bond paper, cardboard, fabric, leather, foil, fiberglass to metal, wood, and a variety of other substrates  
• Useful in the screen print, pool table and sewing industries                                                                                     |
| **275 Shelby - Screen Printers Flash Cure Adhesive** | • Flash cure, clear mist spray  
• Holds most textile products, including fleece garments and is a clear mist spray particularly suited for the rapid heat cycles in the flash cure process |
| **277 Shelby - High Performance Mist Spray Adhesive** | • High-Performance, excellent for a variety of jobs  
• Especially formulated to exhibit fast, aggressive tack with low soak-in for long lasting bonds, on such substrates as foam, cloth, felt, cardboard and paper |
| **300 General Purpose Spray Adhesive** | • All purpose, sticks to most surfaces and is essentially colorless  
• Instant tack and high strength                                                                                                               |
| **303 Hi Performance Foam & Fabric Spray Adhesive** | • Tinted orange, has unique web spray pattern  
• Low-soak-in on polyurethane foam  
• Sizes available: 20 oz can / 5 Gallon Pail / 55 Gallon Drum                                                                                   |
| **313 Fast Tack Upholstery Adhesive** | • Develops tack (bond strength) immediately  
• Soft, flexible bond  
• Has a web spray pattern that is clear, offers low soak-in and instant tack  
• Sizes available: 20 oz can / 5 Gallon Pail / 55 Gallon Drum                                                                                   |
| **343 Construction Adhesive** | • Tinted blue, easy to see  
• Works well on almost all substrates common to the construction industry                                                                            |
| **363 High Strength Fast Tack Spray Adhesive** | • Transparent, has low soak-in  
• Web spray pattern  
• Sizes available: 20 oz can / 5 Gallon Pail / 55 Gallon Drum                                                                                   |
| **365 Hi-Bond High Strength Spray Adhesive** | • High temperature, contact-type adhesive  
• Unusually high initial or green strength • 1-5 min. work time  
• Specifically formulated to bond dissimilar substrates subjected to occasional thermal stress                                                     |
| **373 High Performance Adhesive** | • Colorless, pressure-sensitive, mist spray  
• All purpose and has low soak-in  
• Sizes available: 20 oz can / 5 Gallon Pail / 55 Gallon Drum                                                                                   |
| **375 Screen Printers’ Flash Cure Adhesive** | • Holds most textile products, including fleece garments  
• Clear mist spray particularly suited to the rapid heat cycles in the flash cure process                                                                 |
| **380 Screen Printers’ Adhesive** | • Pressure-sensitive pallet adhesive that does not stain  
• Quick tack, has low soak-in and will not wrinkle  
• Excellent for making short-term bonds and releasing from the garment                                                                 |
| **393 Headliner, Trim & Laminating Adhesive** | • Especially formulated to bond paper, cardboard, fabric, leather, foil, fiberglass to metal, wood, and a variety of other substrates  
• Ideal for screen printing, pool table and sewing industries                                                                                      |
| **396 Contact Cement & Trim Adhesive - Bulk** | • Clear or red tint — Bulk only  
• Use where high strength/high temperature bonding is required                                                                                     |

</table>
| **313B Fast Tack Upholstery Adhesive - Bulk** | • Natural or red tint — Bulk only  
• Strong bond on foam, fabric, wood and some metals                                                                                             |
| **323B Foam & Fabric Adhesive - Bulk** | • Natural or red tint — Bulk only  
• Quick tack, strong bond, soft glue line                                                                                                          |
| **343B Construction Adhesive - Bulk** | • Formulated to bond polyethylene to itself, concrete block, wood, and many other hard-to-bond surfaces • Tinted blue                                                                                       |
| **363B High Strength Fast Tack Spray Adhesive - Bulk** | • Fast Tacking, High Performance Web • For a wide variety of substrates such as Foam, Wood, Particle Board, Fiberglass, Cardboard, and Metal |
| **372B High Performance Adhesive - Bulk** | • Gray, Red or Clear • Especially formulated to exhibit fast, aggressive tack with low soak-in for long lasting bonds, on such substrates as foam, cloth, felt, cardboard and paper |
| **396B Contact Cement & Trim Adhesive - Bulk** | • Clear or red tint — Bulk only  
• Use where high strength/high temperature bonding is required                                                                                     |
**SILICONE LUBRICANTS**

**1080 PAINTABLE MOLD RELEASE**
- All purpose and paintable
- Universally accepted by injection, extrusion and compression molders
- Fast-evaporating

**666 HEAVY DUTY FOOD PROCESSORS SILICONE GREASE LUBRICANT**
- Has a grease-like coating, clings to surfaces, reduces friction, and prevents sticking
- Heavy-duty food grade lubricant and is useful on overhead or vertical surfaces

**610 SILICONE RELEASE SPRAY**
- Most economical lubricant • Colorless, non-staining liquid
- Prevents sticking in gluing, sealing and molding operations
- Mild, solvent when wet / odorless when dry
- Active ingredients comply with FDA regulations • NSF H2

**888 SILICONE RELEASE AGENT & LUBRICANT**
- 3% silicone • Dry spray pattern
- Effective parting agent for most plastic resins
- Leaves a colorless, tenacious dry film when applied
- Recommended for difficult release applications

**988 URETHANE RELEASE AGENT**
- Can be used for rigid polyurethanes, epoxies, polyesters, TPR and other thermostetting resins
- This silicone fluid/resin blend is useful as a release agent for all thermosetting resins, particularly urethanes and epoxies

**999 DRY SILICONE**
- 4% Dry, All-purpose lubricant
- A release agent/lubricant dispersed in solvent
- Its active ingredient complies with FDA regulations
- Eliminates squeaking and sticking in most applications

**A1000 DRY LUBRICANT RELEASE AGENT**
- A PTFE dispersion of white, waxy, low molecular weight polymer
- For high temperature compression molding
- Excellent lubricity and friction-free
- The film is chemically stable, insoluble in water and solvents, non-flammable and thermally stable

**1000B TYPE II DRY PTFE LUBRICANT AND RELEASE AGENT - BULK**
- White, tetrafluoroethylene telomer dispersion
- Imparts fine, dry film
- Produces a slick, friction-free surface with excellent lubricity and antistatic properties

**1294B AQUASIL WATER-BASED SILICONE LUBRICANT - BULK**
- Produces a slick, friction-free surface with excellent lubricity and antistatic properties
- White, tetrafluoroethylene telomer dispersion

**BULK**

**508 SILICONE RELEASE AGENT - BULK**
- A lubricant dispersed in a slow evaporating solvent
- Economy lubricant, recommended for the upholstery trade

**999B DRY SILICONE - BULK**
- Economy lubricant, recommended for the upholstery trade

**1000B TYPE II DRY PTFE LUBRICANT AND RELEASE AGENT - BULK**
- White, tetrafluoroethylene telomer dispersion
- Imparts fine, dry film
- Produces a slick, friction-free surface with excellent lubricity and antistatic properties

**1294B AQUASIL WATER-BASED SILICONE LUBRICANT - BULK**
- Easily diluted with water, economical
- Intended primarily for use as a mold release or parting agent for a broad spectrum of applications

Private label formulations are an extensive part of our business. We address every aspect of research and development, production, quality control, packaging and labeling to ensure regulatory compliance. Our goal is customer satisfaction. Please contact us for consultation or quotation.

All sales are strictly limited to the terms and conditions found on Camie-Campbell, Inc.’s acknowledgment, including a limited warranty and limitations on Camie-Campbell, Inc.’s liabilities and buyer’s remedies.

All orders are subject to acceptance by Camie-Campbell, Inc. at its executive offices currently located at 1005 S. Westgate Ave., Addison, IL 60101. Write or call 800-325-9572 for current pricing, terms and conditions of sale and the name of your local distributor.

Certain Camie-Campbell aerosol and bulk adhesives are not recommended for unsupported vinyl. Certain plastic and elastomeric substrates can exhibit bond failure due to plasticizer migration. Combinations of high temperature and humidity can promote bond failure.

Many Camie-Campbell products are available in bulk containers. Call for further information.

All aerosol products are packaged and priced 12 cans per case

Camie-Campbell, Inc. is environmentally conscious and prides itself in being at the forefront of compliance with current governmental regulatory guidelines. Our concern for the environment and worker safety is our highest priority.
