No ozone depleting chemicals are used in the formulation of Camie products.

**NOTE:** Testing of adhesive on substrate(s) for compatibility is recommended before use.

Private label formulations are an extensive part of our business. We address every aspect of research and development, production, quality control, packaging and labeling to ensure regulatory compliance. Our goal is customer satisfaction. Please contact us for consultation or quotation.

All sales are strictly limited to the terms and conditions found on Camie-Campbell, Inc.’s acknowledgment, including a limited warranty and limitations on Camie-Campbell, Inc.’s liabilities and buyer’s remedies.

All orders are subject to acceptance by Camie-Campbell, Inc. at its executive offices currently located at 9225 Watson Industrial Park, St. Louis, MO 63126-1581.

Write or call for current pricing, terms and conditions of sale and the name of your local distributor.

Certain Camie-Campbell aerosol and bulk adhesives are not recommended for unsupported vinyl. Certain plastic and elastomeric substrates can exhibit bond failure due to plasticizer migration. Combinations of high temperature and humidity can promote bond failure.

Camie-Campbell, Inc. is environmentally conscious and prides itself in being at the forefront of compliance with current governmental regulatory guidelines. Our concern for the environment and worker safety is our highest priority.
